Funder	Project Title	Funding	Institution
Department of Defense - Autism Research Program	Epigenetic biomarkers of autism in human placenta	$576,142	University of California, Davis
Department of Defense - Autism Research Program	Biomarkers for autism and for gastrointestinal and sleep problems in autism	$0	Yale University
Department of Defense - Autism Research Program	Abnormal vestibulo-ocular reflexes in autism: A potential endophenotype	$0	University of Florida
Department of Defense - Autism Research Program	Multiplexed suspension arrays to investigate newborn and childhood blood samples for potential immune biomarkers of autism	$0	Centers for Disease Control and Prevention (CDC)
Department of Defense - Autism Research Program	Identification of lipid biomarkers for autism	$0	Massachusetts General Hospital
Department of Defense - Autism Research Program	Placental vascular tree as biomarker of autism/ASD risk	$0	Research Foundation for Mental Hygiene, Inc.
Department of Defense - Autism Research Program	Serum antibody biomarkers for ASD	$570,780	University of Texas Southwestern Medical Center
Brain & Behavior Research Foundation	Using near-infrared spectroscopy to measure the neural correlates of social and emotional development in infants at risk for autism spectrum disorder	$15,000	Harvard University
Autism Speaks	Identifying gastrointestinal (GI) conditions in children with autism spectrum disorders (ASD)	$0	Harvard Medical School
Autism Speaks	Neurophysiological investigation of language acquisition in infants at risk for ASD	$28,000	Boston University
Autism Speaks	Temporal coordination of social communicative behaviors in infant siblings of children with autism	$0	University of Pittsburgh
National Institutes of Health	ACE Center: Integrated Biostatistical and Bionformatic Analysis Core (IBBAC)	$205,018	University of California, San Diego
National Institutes of Health	Studying the biology and behavior of autism at 1-year: The Well-Baby Check-Up approach	$272,245	University of California, San Diego
National Institutes of Health	Development of neural pathways in infants at risk for autism spectrum disorders	$312,028	University of California, San Diego
National Institutes of Health	ACE Center: MRI studies of early brain development in autism	$349,341	University of California, San Diego
National Institutes of Health	ACE Center: Clinical Phenotype: Recruitment and Assesment Core	$310,430	University of California, San Diego
National Institutes of Health	Are autism spectrum disorders associated with leaky-gut at an early critical period in development?	$302,820	University of California, San Diego
National Institutes of Health	Infants at risk of autism: A longitudinal study	$582,633	University of California, Davis
National Institutes of Health	ACE Center: Assessment Core	$541,624	Yale University
National Institutes of Health	ACE Center: Gaze perception abnormalities in infants with ASD	$293,130	Yale University
National Institutes of Health	Visual attention and fine motor coordination in infants at risk for autism	$73,315	University of Connecticut
National Institutes of Health	The emergence of emotion regulation in children at-risk for autism spectrum disor	$8,719	University of Miami
National Institutes of Health	The ontogeny of social visual engagement in infants at risk for autism	$479,226	Emory University
National Institutes of Health	Neurobehavioral research on infants at risk for SLI and autism	$671,693	Boston University

Funder	Project Title	Funding	Institution
National Institutes of Health	Neurobehavioral research on infants at risk for SLI and autism (supplement)	$345,307	Boston University
National Institutes of Health	Developmental characteristics of MRI diffusion tensor pathway changes in autism	$188,027	Washington University in St. Louis
National Institutes of Health	ACE Network: A longitudinal MRI study of infants at risk for autism	$3,246,479	University of North Carolina at Chapel Hill
National Institutes of Health	Early identification of autism: A prospective study	$481,734	University of Pittsburgh
National Institutes of Health	Early social and emotional development in toddlers at genetic risk for autism	$369,348	University of Pittsburgh
National Institutes of Health	Sensor-based technology in the study of motor skills in infants at risk for ASD	$242,606	University of Pittsburgh
National Institutes of Health	Predicting autism through behavioral and biomarkers of attention in infants	$35,518	University of South Carolina
National Institutes of Health	ACE Center: Linguistic and social responses to speech in infants at risk for autism	$301,655	University of Washington
Southwest Autism Research & Resource Center	Family/genetic study of autism	$50,000	Southwest Autism Research & Resource Center (SARRC)
Simons Foundation	Brain-behavior growth charts of altered social engagement in ASD infants	$208,333	Yale University
Simons Foundation	Physical and clinical infrastructure for research on infants-at-risk for autism at Yale	$219,581	Yale University
Simons Foundation	Physical and clinical infrastructure for research on infants at risk for autism	$0	Emory University
Simons Foundation	Growth charts of altered social engagement in infants with autism	$0	Emory University
Simons Foundation	RNA expression studies in autism spectrum disorders	$500,000	Boston Children's Hospital
Simons Foundation	Signatures of gene expression in autism spectrum disorders	$0	Boston Children's Hospital
Simons Foundation	Electrophysiological, metabolic and behavioral markers of infants at risk	$395,734	Boston Children's Hospital
Simons Foundation	Dynamics of cortical interactions in autism spectrum disorders	$60,000	Cornell University
Simons Foundation	Misregulation of BDNF in autism spectrum disorders	$0	Weill Cornell Medical College
Simons Foundation	Supplement to NIH ACE Network grant: "A longitudinal MRI study of infants at risk for autism"	$180,000	University of North Carolina at Chapel Hill
